

Company PreQual Report: Company X || *The results in this report are preliminary. The results contain self-reported data from a number of contractors who too have completed the safety prequalification survey developed at Northeastern University. The contractors and subcontractors who have completed the survey are from the Boston area. The report's intent is to share your company's survey results and how your results compare to the survey data we have collected so far. The scores below may not fully represent the safety performance of your company.*

2019-08-21

You scored better than 61 percent of companies.

Here are your percent ranking in each construct that makes up your overall score:

***DISCLAIMER:** User expressly agrees that Northeastern University makes no representations or warranties, express or implied, of any kind regarding the content of the ACES Report, its accuracy, adequacy, completeness, legality, security, safety, reliability or the usefulness of any information or results associated with the ACES Report, and any such representations or warranties are expressly disclaimed by Northeastern University. User further expressly agrees that its use of the ACES Report is for internal purposes of user's employer only. The user expressly acknowledges that Northeastern University is not liable in any way with respect to the user's use of the ACES Report or use of any information or results associated with the ACES Report, and that all risks of injury, damage or of any other losses rest solely with the user. The user expressly acknowledges and understands changes may from time to time be made to the ACES Report content and that these changes may or may not be incorporated into any new version of the ACES Report, and that Northeastern University is not liable in any way for any changes to the ACES Report.
